Eligible subjects
\( n = 163 \)

\[ \text{R} \]

Received usual care
\( n = 84 \)
- Provided at least 1 month of data about their falls
  \( n = 77 \)

Withdraw from trial
\( n = 11 \)
- Died \( n = 5 \)
- Withdraw consent/nonadherence to protocol
  \( n = 4 \)
- Admitted to an institution
  \( n = 1 \)
- Moved away \( n = 1 \)

Completed trial
\( n = 73 \)

Received intervention
\( n = 79 \)
- Provided at least 1 month of data about their falls
  \( n = 75 \)

Withdraw from trial
\( n = 13 \)
- Died \( n = 2 \)
- Withdraw consent/nonadherence to protocol
  \( n = 8 \)
- Admitted to an institution
  \( n = 2 \)
- Moved away \( n = 1 \)

Completed trial
\( n = 66 \)
